## PROFILE

I'm a MERN stack developer with 3 years of experience in web development, currently working in Samoft Technologies as lead MERN stack developer. I have a proven track record of delivering robust and scalable web applications using the MERN stack. Proficient in JavaScript, TypeScript, Python, and problem-solving, I am constantly seeking new challenges and opportunities to expand my technical skills. Committed to continuous learning and growth, I am looking for an exciting and challenging opportunity in a company that will continuously motivate and drives me to do my best and improve my skills and abilities in order to be able to assist the company in achieving its company mission and goals.

## EXPERIENCE

### MERN Stack Developer

Samsoft Technologies, Islamabad | March 2022 - Present

- Developed and maintained server-side logic using Node.js, Nest.js, and Express.js.
- Implemented responsive and interactive front-end using Next.js and React.js.
- Utilized Google Maps APIs to create map-based features and integrate various functionalities.
- Collaborated to integrate third-party APIs, ensuring seamless data flow and system functionality.
