### Summary

As a seasoned Front End Developer with expertise in JavaScript stacks, I am passionate about delivering high-quality products using a diverse range of technologies. My specialties include React Js, React Native, and JavaScript, among others. I am always eager to explore new software solutions and technologies that can improve the user experience and achieve project goals. I pride myself on my ability to diagnose and troubleshoot problems, as well as my talent for developing effective solutions. My innovative and creative approach has enabled me to contribute unique ideas and successful projects in the field. I am excited to bring my expertise and enthusiasm to a new position where I can continue to grow and thrive as a valuable team member.

### Skills & Specialization

- React JS
- Redux
- Redux Toolkit
- Material UI
- React Native
- Jquery/Jquery UI
- Javascript
- Bootstrap
- CSS
- HTML
- Git/Github

### Education History

- **Virtual University Of Pakistan** 2023 - 2028
- **Degree College M.B.Din.** 2020 - 2022
- **M.B High School** 2008 - 2020

### Work Experience

#### Front End Developer (React JS | React Native)

Jan 2022 to Present

- Implemented the micro-frontend architecture for the front end of an application.
- Designed and developed UI components based on requirements gathered from stakeholders.
- Resolved bugs in the existing codebase to improve product performance and functionality.
- Integrated APIs to enable seamless communication between front-end and back-end.
- Utilized Redux Toolkit for efficient global state management.
- Contributed to the development of a React Native mobile application, focusing on front-end features.
- Designed and developed the UI for a new mobile application from scratch.

#### Junior Front-End Developer

Oct 2020 to Dec 2021

- Designed and develop the front-end of client-facing applications for a services-based company.
- Collaborated with stakeholders to gather requirements and design UI components that meet their needs and expectations.
- Integrated APIs to enable communication between front-end and back-end, ensuring reliable data exchange.
- Leveraged Redux Toolkit for simplifying the process of managing application data.
