Experiencia Profesional

FreeLancer Dibujante(Remoto)/Desarrollador de Software/Experiencia en Campo

Upwork, Freelancer.com

♦ In over 4 years, I gained valuable practical experience in various fields in architecture thanks to my architectural and design background. Communication with my client is the key of success of every project. I can provide all the process for client to make a successful project, from first sketches to the final design. I learn new things so fast that's why I'm scalable to achieve perfectly all the details of my clients project according to their requirements.

Profile

Whether you're looking for an Architect/ Bim expert or adding new talent to your team, I will be dedicated to take your project to the next level and exceed your expectations.

- ♦ Here is a brief description of my architectural skills.
 - Expert in 3D Meta building using Unreal Engine.
 - Expert in developing blueprints using Unreal Engine.
 - Expert in Architecture design and interior design.
 - Expert in Landscape design.
 - Expert in BIM softwares Revit and ArchiCad.
 - Intensive knowledge about 3D modeling using AutoCAD and Sketchup.
 - Producer of High quality render using V-Ray Lumion.

Education

Architect

Columbus University

Bachelor of Architecture
