

# Umu Hawa Bah

## Frontend Developer & Designer

Viken, Norway

96983495

umu.hawa96@gmail.com

I'm a highly driven Frontend Developer with a Bachelor's degree in Frontend and Mobile Development, specializing in creating exceptional user experiences through HTML5, CSS3, and JavaScript. I excel in collaborative team environments, gathering requirements and designing user interfaces. My internship at Green Isac Orchestra strengthened my frontend development skills, implementing responsive design for seamless rendering across devices. I have sharpened my skills in creating visually appealing and user-friendly websites through freelancing projects for friends and family, leveraging my expertise in HTML5, CSS3, and JavaScript to deliver outstanding results. What sets me apart as a frontend developer is my familiarity with modern web development tools and frameworks, including React. Leveraging this framework, I create interactive and dynamic user interfaces, enhancing frontend experiences. Additionally, my proficiency in working with APIs enables seamless integration of real-time data into dynamic web applications. I prioritize high code quality, following best practices and actively participating in code reviews. By collaborating with team members, I enhance development processes and ensure a final product of the highest standards. I excel in written and verbal communication, facilitating effective collaboration with cross-functional teams and clear conveyance of ideas and solutions. My strong organizational skills allow me to efficiently manage multiple projects, whether working independently or as part of a team. In summary, I am an ambitious Frontend Developer proficient in HTML5, CSS3, JavaScript, React and Git for efficient code management. With a passion for crafting innovative web solutions, I create engaging experiences. My expertise in API integration delivers real-time data and interactive web applications. I am dedicated to coding excellence, effective communication, and strong organization, contributing to frontend development success.

---

## EDUCATION

### **Kristiania University College** — *Oslo, Frontend and Mobile development*

August 2018 - August 2022

Bachelor in Frontend and Mobile development
