### PROFESSIONAL SUMMARY

Hi there! I'm Dharmendra a passionate web developer. I have a solid foundation in React, along with popular libraries like Redux for managing application state and Framer Motion for adding captivating animations to web projects. I'm also skilled in using CSS frameworks such as bootstrap and Tailwind CSS UI to style components and create user-friendly layouts. In addition to my frontend expertise, I have a decent understanding of backend technologies like Node.js and Express.js. This knowledge enables me to collaborate effectively with backend teams, bridging the gap between the front and back ends of web development projects. I'm excited to continue my journey in the tech world, eager to learn and contribute to innovative projects. Let's connect and explore opportunities together
