

# LUIS C. URBINA G.

**Full Stack developer y Moodle Administrator with 25 years of experience**

## Professional Profile

I am a Full Stack developer with over 25 years of experience in system analysis and development, database administration, and web development. In the past five years, I have worked as a senior Full Stack developer, Linux administrator, Moodle administrator, and e-learning specialist. I have experience in PHP and Laravel framework, JavaScript, Vue JS, HTML5, CSS3, WordPress, and Moodle. I have worked on projects such as e-learning materials development, web page design and development, and programming projects, familiar with DevOps culture. In addition, I have worked with various infrastructures such as AWS, GCP, Oracle Cloud, and Microsoft Azure.
