Database : Firestore

Hosting : Firebase

Others : FCM, Sendgrid, OpenMoney, Google Maps API

CENTRE FOR RESEARCH IN SCHEMES AND POLICIES - SURVEY APP (In association with Government Of Telengana)

This project involves collecting information from profile forms which will allow CRISP to understand the preparedness (SWOT analysis) of the involved institutions based on which clusters can be formed for mentoring. These institutions will be given targets which will then be followed up. Based on this information, the required interventions can be planned and coordinate the support required from various administrative departments.

As a part of the same project, The Capacity Building Commission aims to comprehensively understand the impact of participating in multiple committees on the Deputy Commissioner's effectiveness in fulfilling their other responsibilities. The ultimate objective is to develop a well-considered plan to streamline and optimise these committee meetings.

Technology: React, Tailwind CSS, Nodejs, Express js

Database: Firebase

FRONT UI & LAYOUT DESIGNER IN APIE-ONE

APIE.io is a CMS to develop web and mobile apps. Involved in development of the UI and Layout designer module in Apie One.
