👱 Prasheel

PROFILE

MERN stack developer with 4+ years of experience in using **React, React Native, Axios, MY SQL, Ionic, Firebase, MongoDB, Nodejs and ExpressJs**. Has worked on various team projects on **GIT** repositories. Has skills to lead developers to plan, test, and implement features. Has good communication skills and is creative enough to plan and implement solutions. Has knowledge and creativity to make apps on the latest ionic platform with an understanding of **Cordova** and **Capacitor** Plugins.

EXPERIENCE

AN AUTOMOBILE DEALER MANAGEMENT PLATFORM - KDEALER+

Made a few models in front-end with UI and creation of a Dealer management platform for KIA USA. It was an elaborate project with the involvement of more than 25 people from the INFOSYS USA team wherein we had to build the dealer management and its Financial Statement module for them.

We had a Dot Net backend and API on top of which the frontend pages were built.

Technology: React, .NET

INSTAGRAM, TWITTER #TAG IMAGE SCRAPPER - PRINSTAINDIA

Involved in the development of an application which collects trending #tag images and direct uploads images from an upload page to a database and prints instantly when the printer queue is fed with an image list. This app is used for #tag promotions. I have worked in the layout module to arrange layers in a canvas and set dynamic layers and a desktop bot which fetches images and merges them with layout and sends them to the printer. For implementing the Layout Module, I've used an External Javascript canvas library Called Fabric.js. By using that, I've created a template editing functionality

Technology: React, Fabric.JS, NodeJS, Firebase tools, Google Cloud Functions, GCP, Express JS

Database: Firestore

Client: http://prinstaindia.com/

NEWS SITE FOR A FOOTBALL SPORTS CLUB - MATCHDAY

Worked in Admin Panel modules with a team of 3 members, Mainly worked on graphical analytics presentation of data on dashboard.

Also developed the Ionic Angular Mobile App for both playstore and appstore.

The App and the website uses Neonify plugins to display the news data. So it's like the implementation of Neonify.

Technology : Ionic 4, NodeJS, React native, MongoDB, AWS

Database : MongoDB

PlayStore URL: https://play.google.com/store/apps/details?id=com.matchdaydigital.app&hl=en_US&gl=US

AppStore URL: https://apps.apple.com/gb/app/matchday-digital/id1516835961

MILK PRODUCTS E-COMMERCE REACT NATIVE APP. - DAILYMOO

This is an e-commerce mobile application which is developed for selling milk products. In this web app we have Home, Products, About, Contact us, Cart, log in and Footer components. I've also used redux for managing the states across the application. It has many functionalities like add-to-cart, check out & payment gateway!

Technology: React Native, Redux, NodeJS

Database: MySQL

ON DEMAND CONSULTING - NEXTYN

At Nextyn, we're redefining consulting by identifying the finest global experts through our proprietary machine learning algorithm. Involved in development of components and using React 17 with my team members, Also Involved in backend API Development of the project.

Technology : React 17, NodeJS, MongoDB, AWS, Express JS

Database : MongoDB

Website URL : https://kms.nextyn.com/

EDUCATION

Bachelor of Engineering (Electronics & Communication) Government Engineering College Rajkot, 7.63 CGPA

SKILLS

React 17, React-Native, Ionic 5, Firebase, Fabric.JS, MongoDB, Socket.io, NodeJS, ExpressJS

Platforms: AWS, GCP, Azure OS: Windows, Linux
