INTRODUCTION

Hello, I'm Sarrosh, a seasoned full stack developer with over 6 years of hands-on experience in the world of web and software development. My journey in this dynamic field has allowed me to acquire a deep and diverse skill set, making me proficient in a wide range of technologies.

I specialize in:

Front-End Development:

My expertise includes React and React Native, enabling me to craft intuitive and visually appealing user interfaces that engage and delight users.

PHP (IS) **Back-End Development:**

With skills in PHP (including Laravel), Node.js, and a knack for solving complex server-side challenges, I ensure robust and

efficient functionality for your applications.

Database Management: I have extensive experience with both relational databases like MySQL and NoSQL databases like MongoDB, ensuring your

mongo DB_®

data is managed and retrieved efficiently.

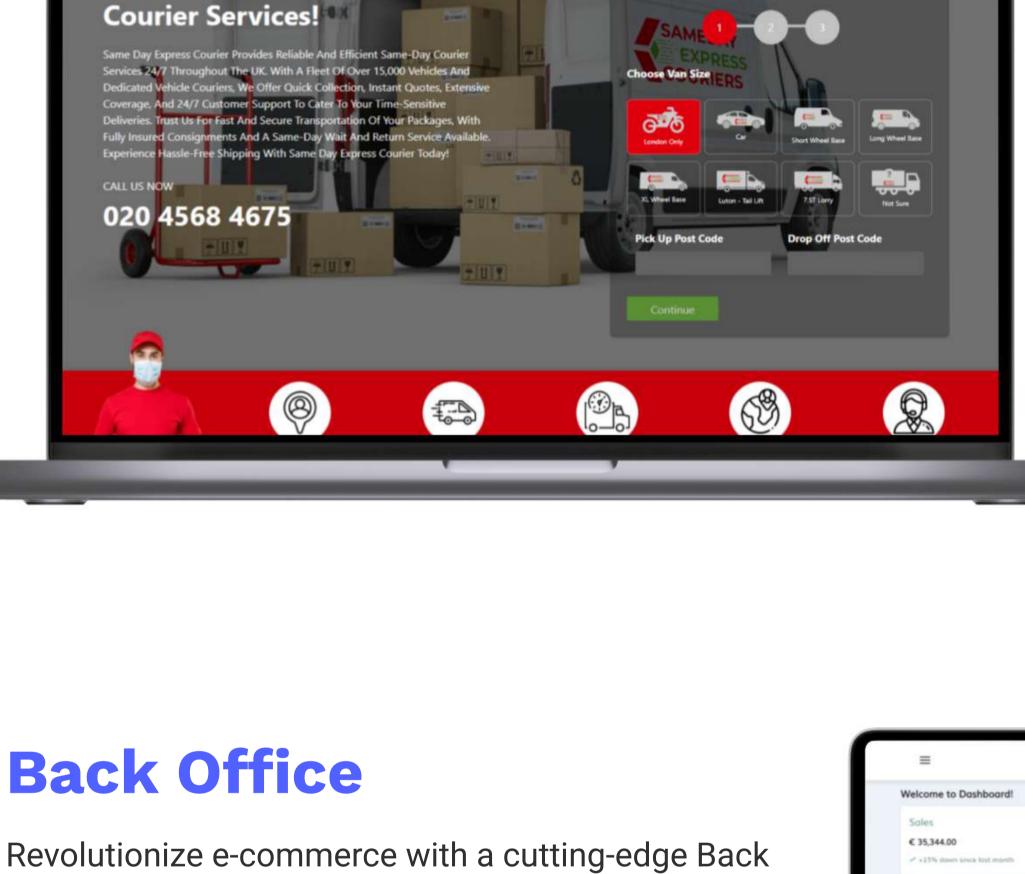

But what sets me apart is not just my technical prowess; it's also my commitment to delivering top-notch solutions. I believe that a well-executed design is integral to a successful project, and I have access to the best resources to ensure your project's design aligns perfectly with your vision.

I look forward to collaborating with you and applying my skills to bring your ideas to life, making them not only functional but also visually stunning. Let's turn your concepts into captivating digital experiences.
