- Ankara/Turkey

## SUMMARY

2 years of professional work experience and passionate about game development, willing to learn new things and help the team. Finds the source of the problem and develops multiple methods to solve it enerates original game ideas with a wide range of gaming experience on different platforms

## EXPERIENCE

### Clocknest Games

2021 2023

Eskişehir/Turkey

Mobile Game Development Studio

- Developed hyper casual, casual and puzzle style games for iOS and Android Platforms
- It presented new game ideas with reference to current hit games
- Made the necessary bug tests in the games and published them

## PROJECTS

### Color Collector 3D 2021

İos

We paint the colorless objects around with our men inside the ring. If we collide with an object of a different color, it becomes a failure. It was made using Paint in 3D and ragdoll.

### Color Survivor 2021

İos

The aim of the game is to paint the entire playing field by directing our men to the same color walls. editor code, and paint in 3d were used

### Bead Match 2022

İos/Android

A puzzle game to clear bars by bringing boxes of the same color next to each other

### Happy Village 2023

Android

To build a settlement for ourselves and develop our land with the money we earn from farming.

The game has a very comprehensive save system that includes the size of the plants, the location of the constructed buildings and the inventory.
