# MANPRIT SINGH SAHOTA

CO-FOUNDER & CTO

## SUMMARY

Co-founded Xelentor Technologies in 2021 with a vision to revolutionize the digital landscape. Currently serving as the Chief Technology Officer (CTO), I lead a dynamic team crafting innovative software applications and robust systems. Proficient in .NET development, I leverage technologies like .NET MVC, Entity Framework, and SQL Server to deliver tailored solutions for clients.

## EXPERIENCE

**04/2021 - Present**

### XELENTOR TECHNOLOGIES PVT. LTD.

**Co-Founder & CTO**

- Developed and implemented long-term tech strategies aligned with company goals.
- Led and mentored developers, fostering growth and collaboration.
- Initiated and led R&D to integrate innovative solutions.
- Facilitated communication between teams for alignment on product vision.
- Conducted assessments for potential partnerships or acquisitions.
- Represented the company as a thought leader in conferences and publications.

**05/2019 - 04/2023**

### (X) PRIVATE LIMITED

**Sr. Software Engineer**

- Lead modules in ASP.NET MVC framework, ensuring adherence to project requirements, coding standards, and best practices.
- Identify, troubleshoot, and resolve bugs promptly to maintain optimal performance and user satisfaction.
- Optimize database code, including stored procedures, for efficient data storage, retrieval, and manipulation, enhancing application responsiveness.
- Contribute across the entire technology stack, encompassing front-end and back-end development, to deliver comprehensive software solutions.
- Communicate and collaborate effectively with cross-functional team members to align goals, priorities, and deliverables and drive project success

**05/2016 - 02/2019**

### (X) PRIVATE LIMITED

**Sr. Software Engineer**

- Utilized AngularJS, ASP.NET Core, ASP.NET MVC, and other technologies for dynamic web applications.
- Employed Entity Framework for optimized interactions with MySQL databases.
- Conducted thorough testing procedures to identify and rectify defects, ensuring reliability, security, and performance.
- Ensured proper documentation of code, processes, and project specifications for seamless collaboration and knowledge sharing.
- Acted as a key liaison between the company and clients, understanding needs, gathering requirements, and providing regular updates on progress.
