Role: Full-Stack Web Developer | Laravel Developer | Python Developer

Profile

Passionate Full-Stack Web Developer with professional experience in Laravel, PHP, MySQL, Vue.js, WordPress, JavaScript, and Python. Currently working as a Laravel Developer at Indus BPO, where I build and maintain scalable business applications, insurance management systems, RESTful APIs, and internal portals. Experienced in developing secure backend architectures, database-driven applications, and responsive user interfaces. Strong understanding of MVC architecture, API integrations, Git version control, and deployment workflows. Continuously learning new technologies and focused on delivering efficient, maintainable, and production-ready solutions.

Work Experience

Laravel Developer

Indus BPO

11/2024

In my role as a WordPress and Laravel Developer, I am responsible for developing and maintaining full-stack web applications using Laravel and related technologies. My daily tasks include writing clean, modular PHP code following MVC architecture, creating and consuming RESTful APIs, and managing MySQL databases using Eloquent ORM. I collaborate closely with frontend developers (Vue.js and WordPress integration) to deliver seamless user experiences and dynamic features.

Python Developer Intern

DK Interns

6 Months Internship

- Developed Python automation and web scraping solutions.
- Collected, cleaned, and processed large-scale datasets.
- Worked with APIs, data extraction, and automation workflows.
- Assisted in building tools for data collection and reporting.

Freelance Web Developer (Part-Time)

Self-Employed

1 Year (Alongside Studies)

- Delivered custom websites and web applications for clients.
- Built responsive frontends using HTML, CSS, JavaScript, and Bootstrap.
- Developed backend functionality using PHP and Laravel.
- Managed hosting, deployment, and maintenance of client projects.

Education

Intermediate in Computer Science (ICS)

Aspire College, Lahore

2021 – 2023

ADP in Computer Science

University of Education, Township Campus, Lahore

2023 – 2025

Matriculation (Science)

Sabzazar High School, Lahore

Completed 2021

Skills

Backend: Laravel, PHP, Python, REST APIs

Frontend: HTML5, CSS3, JavaScript, Vue.js, Bootstrap, jQuery

Database: MySQL, SQLite

CMS: WordPress

Python: Web Scraping, Automation, Data Processing, API Integration

Tools: Git, GitHub, Composer, XAMPP, VS Code

Concepts: MVC Architecture, OOP, Database Design, Deployment

Project Highlights

Large-Scale Manga Data Collection System

Built a Python-based scraping and automation system capable of collecting, processing, and organizing over 800,000 manga chapters from multiple online sources. Implemented data validation, storage optimization, automated processing workflows, and scalable scraping techniques for handling high-volume datasets.

Insurance Management Portal

Developed policy management, customer tracking, reporting, and workflow automation modules using Laravel and MySQL.

Task Management System

Built recurring task scheduling, team management, project tracking, and reporting features for internal business operations.
