

About me

I was born in Posadas, Misiones, Argentina, and have always been captivated by art. My passion for artistic expression began in childhood and was profoundly influenced when I encountered the works of Henri Matisse at the age of 10.

I believe that art is the most powerful expression of human transcendence. Throughout my youth, I engaged in painting, drawing, and sculpting in my hometown. I later took a course on human faces and anatomy, which deepened my understanding and appreciation of art.

VICTORIA ROBINSON
Architectural/Interior Designer

I moved to Buenos Aires to study Architecture and Urbanism at the University of Belgrano. At the age of 20, I discovered the works of David Hockney, which inspired me to pursue a career in architecture.

In 2018, I relocated to Fort Lauderdale, Florida, where I worked as a freelancer and then for Gusti Building in Fort Lauderdale.

From 2021 to 2024, I worked for Roche Bobois in Miami, where I honed my skills in interior design. In 2023, while working from the Florida Keys, I established my own design studio, Vick Robinson Studio. I am an American citizen and currently reside in Fort Lauderdale and continue to be inspired by artistic endeavors, incorporating my love for visual arts into all my projects.
