Profile Summary

- Full Stack Web Developer with strong problem-solving skills, capable of developing complex and scalable web applications.
- Successfully built a high-performance forum system designed to facilitate efficient user interaction and query resolution.
- Possesses deep knowledge of multiple technology stacks, contributing to optimized and streamlined website development.
- Adept at designing, implementing, and maintaining responsive, user-centric websites and applications.

Academic Projects

E-Commerce Website Jan 2024 – Feb 2024

Tools: HTML, CSS, JavaScript, Bootstrap, Php, MySQL

Developed a full-fledged e-commerce platform to sell bags across various categories, complete with an admin dashboard for seamless management.

Responsibilities:

- Designed a highly responsive website with a parallax effect, enhancing user engagement and visual appeal.
- Developed the admin dashboard in PHP, providing users with real-time alerts for any updates or changes.
- Built a secure backend with multi-authentication, efficiently retrieving and displaying data from the database.

Social Networking Website June 2024 – Oct 2024

Tools: HTML, CSS, JavaScript, Bootstrap, jQuery, AJAX, Php, MySQL

A social networking platform designed to connect users globally through a user-friendly interface and interactive features.

Responsibilities:

- Designed and developed a responsive UI, focusing on enhancing user experience.
- Implemented the backend in PHP to handle API requests and SQL database interactions.
- Integrated key features such as account creation with email verification, profile updates, post creation, and a robust follow/unfollow system, along with a like & comment functionality.

Salon Management System Web App July 2024 – Aug 2024

Tools: HTML, CSS, JavaScript, Bootstrap, jQuery, Php, MySQL, Laravel

Developed a web application to manage client appointments, rescheduling, and feedback for salons, with a clean and intuitive interface.

Responsibilities:

- Designed and developed a responsive UI, focusing on easy navigation and an improved user experience.
- Developed the backend using Laravel, integrating API requests to interact with the SQL database efficiently.
- Utilized the MVC architecture, ensuring multi-authentication support for both staff and clients.

Academic Achievements

- Lead project teams as Team Lead twice, successfully delivering major projects on time and to specification.
- Awarded Student of the Month four times for demonstrating excellence in both academic performance and leadership.
- Maintained 100% attendance, showcasing dedication and a strong work ethic throughout the academic year.
