SUMMARY

A self-independent, reliable, and friendly individual who works hard to achieve goals with a positive and adaptable attitude. Known for quickly building rapport with customers and providing thoughtful solutions to their inquiries. Passionate, well-organized, and always eager to learn new technologies. As a front-end developer, I specialize in creating responsive and user-friendly web interfaces using HTML, CSS, JavaScript, and React. I have a strong eye for detail, a commitment to clean, maintainable code, and a deep interest in enhancing user experience through intuitive design and modern development practices.

WORK EXPERIENCE

Evistep Enterprise Company
Web Developer

2022 - PRESENT

- Design and develop code components of the product.
- Implement process improvements to enhance product quality and development efficiency.
- Develop and implement highly responsive user interface components using HTML/CSS.
- Maintain and continuously improve the company website.
- Collaborate closely with the project manager to coordinate and execute development activities.

Freelance
Software Engineer

2024 - 2025

- Built a fully responsive web application for buying and selling trucks using React, HTML5, and CSS3.
- Designed clean and intuitive user interfaces optimized for mobile, tablet, and desktop experiences.
- Integrated dynamic features such as searchable listings, filters, and interactive forms to enhance usability.
- Focused on performance and accessibility to deliver a smooth user experience.
- Collaborated with clients to gather requirements and implement feedback, ensuring a tailored and functional product.
