Shawaiz Arif

CEO & Founder | AI Automation & Software Solutions | Helping Businesses Scale with Intelligent Workflows
New York, New York, United States

Summary

I'm Shawaiz Arif, Founder & CEO of VisionGen a company dedicated to delivering AI-powered automation and intelligent software solutions to help businesses work smarter, scale faster, and operate globally.

With expertise in AI-driven decision support, process automation, and digital transformation, I help organizations streamline operations, enhance productivity, and unlock new growth opportunities.

Specialties: AI Automation | No-Code/Low-Code Solutions | Intelligent Dashboards | Business Process Optimization | Data-Driven Decision-Making

Let's connect to explore how AI can transform your business.

Experience

VisionGen
Chief Executive Officer
January 2025 - Present (9 months)

As Founder & CEO of VisionGen, I lead a team dedicated to transforming businesses through AI-powered automation, custom CRM development, and workflow optimization. My role involves setting the company vision, designing automation strategies, and ensuring every project delivers measurable results for clients.

Key contributions & achievements:

Designed and deployed end-to-end AI automation solutions that reduce manual work by up to 70%.

Developed custom CRMs and client dashboards tailored for B2B service providers.

Integrated tools like GPT, Make.com, Airtable, and Twilio to build scalable automation ecosystems.

Implemented AI meeting assistants for client onboarding and instant proposal generation.

Helped clients across multiple industries streamline operations and accelerate growth.

VisionGen's mission is to help organizations work smarter, scale faster, and stay ahead in a rapidly evolving digital world.

LUNA Corporation
Team Lead Manager
March 2015 - October 2022 (7 years 8 months)

Managed and led HR operations and international visa processing functions to support organizational growth and global workforce mobility.
Key achievements:

Supervised a team handling recruitment, onboarding, payroll coordination, and employee relations.

Oversaw visa applications, renewals, and compliance for international employees, ensuring adherence to immigration regulations.

Streamlined HRM workflows, reducing processing time for employee requests by X%.

Coordinated with government agencies, embassies, and legal consultants to expedite approvals.

Maintained accurate employee records and ensured compliance with labor laws.

Implemented HR policies that improved employee engagement and retention.

This role enhanced my expertise in human resources management, compliance, and cross-border operations, preparing me for leadership in diverse, international business environments.

Education

The Superior University
Master of Science - MS, Software Project Management · (November 2024 - August 2026)

Technische Universität Ilmenau
Master of Science - MS, International Business Economics · (November 2022 - September 2024)
