

SANA MANZOOR

SOFTWARE ENGINEER

ABOUT ME

Motivated Software Engineer student currently in 3rd semester with a strong foundation in programming fundamentals, C++, and database concepts. Familiar with software engineering principles including SDLC and object-oriented programming. Eager to learn and grow in a professional software development environment.

EXPERIENCE

Sana Manzoor Software Engineer

2026-present

- Gained understanding of Software Development Life Cycle (SDLC) including requirement analysis, design, implementation, testing, and maintenance
- Applied Object-Oriented Design principles to develop structured and reusable code in C++
- Studied and implemented database design concepts including ER models, normalization, and SQL queries
- Practiced problem analysis and solution design using programming fundamentals
- Learned basic concepts of software testing and debugging techniques

Objective 2025-2029

- Motivated Software Engineering student currently in 3rd semester, seeking an internship opportunity in a software house to apply my programming and database knowledge. Passionate about learning new technologies, solving problems, and contributing to real-world projects while enhancing my technical skills.

Technical Skills 2025-2029

- Programming Languages: C++
- Concepts: Object-Oriented Programming (OOP), Programming Fundamentals
- Database: SQL, Database Design, Queries (SELECT, JOIN, VIEW, PROCEDURES)
- Tools: MS Word, SQL, Dev-c++

EDUCATION

Software Engineer
Superior University 2025-2029

Bachelor of Software Engineering
Superior University 2025-2029

SKILLS

- Communication
- Time management
- Organization
- Technical skills
- Creativity
- Research

LANGUAGES

- English (Fluent)
- Urdu (Fluent)
