Education Background

- Uka Tarsadia University

  Masters in Computer Apllications

  Completed in 2019

About Me

- Experienced full stack developer skilled in both front-end and back-end development. Proficient in HTML, CSS, JavaScript, and frameworks like React and Angular. Strong command of back-end technologies such as Node.js, Python, and databases. Adept at bridging the gap between design and functionality, delivering visually appealing and user-friendly applications. Collaborative and communicative, able to gather requirements and translate them into technical solutions. Problem-solving mindset with a continuous learning approach to stay up-to-date with industry trends. Committed to delivering high-quality work, meeting project deadlines, and exceeding client expectations.

Professional Experience

1. Talentica soft Pvt. LTD. | Web Developer

   January 2019 – February 2020

   Key responsibilities:
   - Established clear system performance standards and wrote specifications.
   - Produced and maintained system requirements, designs and resource inventory documentation.

2. Jinfotexh Pvt. LTD. | Software Engineer

   April 2020 – May 2021

   Key responsibilities:
   - Analyzed user needs and software requirements to determine design feasibility.
   - Produced high-quality code artifacts that conformed to standards and best practices.
   - Managed both back-end and front-end aspects of development process.

3. Professional Freelacer | Full Stack Developer

   June 2021 - Present

   Key responsibilities:
   - Produced and maintained system requirements, designs, and resource inventory documentation.
   - Analyzed code and correct errors to optimize output.
   - Collaborated to define, design and estimate time and resources for development initiatives.
   - Delivered code to meet functional or technical specifications.
   - Designed front-end and back-end solutions for test-driven development.
