RE: CHARACTER REFERENCE FOR LOUISE STOKES

To whom it may concern,

I have known Louise Stokes for the past 5 years, and had the great pleasure of working with her as she edited my personal biography and published book, 'Hypocratic Oaths'.

Louise is a professional, honest and trustworthy colleague, who gently guided me through the editing process of my first published written project. Being new to this industry, I had concerns regarding my syntax and structure, but Louise is extremely dependable and showed great attention to detail, having an excellent knowledge of grammar and the English language. She provided consistent communication regarding the progress of the project, with keen objective perspective and constructive feedback. Her suggestions were always on point, without hindering the principal style or meaningful content of the book.

I am extremely grateful for Louise's passionate dedication, encouragement and integrity. The project was completed within the designated timeline and I look forward to working with her again in the near future. I have no hesitation whatsoever in recommending her for any editing or proof-reading commitments.

If any additional information is required, please feel free to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read 'Gisela de Oliveira Esteves'.

Dr Gisela de Oliveira Esteves
