SUMMARY

I am a passionate Native & Flutter developer with over 5 years of experience in mobile app development. My focus is on building robust, native and cross-platform applications with Java, Kotlin, Flutter and Dart. I have developed a wide range of apps—from MFS, Lawyer appointment booking, eBooks, audio book, and OTT platforms to e-commerce and utility solutions. I am known for my clean code practices, attention to architecture, and problem-solving in collaborative environments.
