

Hey!

We may be new on Freelancer, but we are Top Rated Plus (Top 3%) on Upwork, we are on the Clutch Top 100 for Software Development, and we have done over \$4M in revenue last year (2021)!

I love helping passionate founders build game-changing apps is what wakes me up in the morning!

I built, raised capital for, and sold several consumer software products.

I've worked with off-shore agencies, freelancers, and I even hired my own in-house teams.

I've seen what works and what doesn't.

I've been through the struggle of working with untrustworthy developers who just want your money and don't care about the product.

Whats why I wanted to ensure no one has to go through the same struggles I did so that's why I partnered with Valere Labs. Valere Labs specializes in designing and developing award-winning mobile apps and websites that are fast, attractive, responsive, and easy to use. We've built over 100 successfully launched applications –ranging from startups to Fortune 500 companies!

Valere has experience developing for both consumer and B2B audiences across a myriad

of verticals such as healthcare, finance, sports, fitness, education, and more!

Valere is an agency consisting of highly talented engineers, digital strategists, designers, PMs, and QA engineers that are experts in: iPhone (Swift), Android (Kotlin & Java) React Native, Flutter, Ionic AngularJS, ReactJS, Javascript, WordPress Python, NodeJS, PHP, Django, Laravel, Ruby on Rails, MongoDB Valere Labs has re-invented how software agencies operate -- mitigating issues related to communication and process inefficiencies allowing us to attract the interest of enterprise and newly funded startups.

Our project minimum is \$10,000 USD which comes out to about ~200 hours worth of work.

If you are looking for quick, one-and-done projects, Valere is not the right firm for you.

We take extended amounts of time to hear your entire vision and understand your customer, your market, your differentiating factors, and we build you a product that can be built on for the long run.

We look at ourselves as a partner in your company.

When we help you succeed, you will need more development work, and we will be right there with you every step of the way from MVP to IPO.

Send me a message to connect so I can learn about you and your vision!
