Full-Stack Web Developer

With over a year of experience as a Full-Stack Web Developer, proficient in JavaScript, TypeScript, Node.js, Express, React, and Angular, I have successfully led a project and integrated new features, resulting in a 20% increase in user satisfaction in just 6 months.

WORK EXPERIENCE

Full-Stack Web Developer
SMART MOVES LAB   **11/2020 - Present**

- Mastered: Proficient in JavaScript, TypeScript, and backend frameworks like Node.js, Express, and NestJS, alongside frontend frameworks such as React and Angular.
- Designed: Architected and implemented responsive web applications, following modern design principles, ensuring scalability and optimal performance.
- Orchestrated: Integrated various 3rd party APIs, conducted comprehensive unit and integration testing, and optimized the full-stack application workflow for cross-platform compatibility.
- Demonstrated: Expertise in deploying applications on cloud platforms like AWS and handling secure transactions using payment gateways like Stripe and PayPal.

Project Leader
Quick Pantri

- Headed: Led the project and spearheaded the development of an application from initial concept to full implementation.
- Teamwork: Collaborated with the web and iOS teams to seamlessly integrate a new feature into the application, ensuring consistency across platforms. Conducted thorough analysis and brainstorming sessions to identify areas for app improvement, implementing enhancements to enhance user experience and functionality.
- Learning: Gained valuable teamwork experience and honed leadership skills through effective collaboration within the team. Demonstrated the ability to lead by example and effectively coordinate team efforts to achieve common goals. Prioritized understanding and meeting user needs through proactive communication and collaboration with team members.
