Growth Areas	Game Development, Unreal Engine, C++, Plasticity, Houdini

EXPERIENCE

3D Artist and Brand Creator — Aug 2024 - Present
Fiverr — *Bahawalpur*

- Produced 3D assets for gaming and visualization.
- Built a portfolio on [CG Trader](#) and [FAB](#).
- Delivered market-ready designs for digital projects.

3D Artist Multidisciplinary Designer — Nov 2021 - May 2024
Fiverr — *Bahawalpur*

- Designed game assets and 3D models for digital projects.
- Created concept art and product designs.
- Delivered market-ready designs for digital projects.

PROJECTS

Low-Poly Architectural Exterior Design A low-poly exterior design created with polygon topology and hard surface modeling, optimized for real-time rendering. The model focuses on efficient visual appeal, with plans to texture for added realism. [(Low-Poly Architectural Exterior Design)](#)

Tron 3.0 A three-week project inspired by Tron, crafted in Blender 3.6. Blends creativity and technology to deliver a stunning, boundary-pushing design. [(Tron 3.0)](#)

Unique Headphone Designs A sleek, asymmetrical headphone model with a futuristic look, fully subdividable for smooth finishes. Ideal for close-ups, VFX, and high-quality renders. [(Unique Headphone Designs)](#)

EXTRA-CURRICULAR ACTIVITIES

- Authored the book [Comprehensive Crypto Chronicles](#), focused on the financial market and crypto.
- Passionate about learning and exploring new software, fields, and technologies.
- Create concept art, including futuristic bikes, NFTs, mechas, and more.
