PROJECTS

Low-Poly Architectural Exterior Design A low-poly exterior design created with polygon topology and hard surface modeling, optimized for real-time rendering. The model focuses on efficient visual appeal, with plans to texture for added realism. (<https://www.artstation.com/artwork/GvmDA4>)

Tron 3.0 A three-week project inspired by Tron, crafted in Blender 3.6. Blends creativity and technology to deliver a stunning, boundary-pushing design. (<https://mr-katha.artstation.com/projects/RyOwBe/>)

Unique Headphone Designs A sleek, asymmetrical headphone model with a futuristic look, fully subdividable for smooth finishes. Ideal for close-ups, VFX, and high-quality renders. (<https://mr-katha.artstation.com/projects/Ke4xvG>)
