

Hetal Bhanderi

Software Developer

Experience: 5+ Years

Professional Summary

Experienced Full Stack Developer with a strong background in backend and frontend development using C#, .NET, Angular, and JSON. Proven ability to work with large-scale data, APIs, and complex multi-tier applications. Skilled in cloud services with extensive knowledge in Azure, CI/CD pipelines, and database systems. Solid understanding of basic data science principles and passionate about delivering scalable and efficient software solutions.

Technical Skills

- **Programming Languages:** C#, JavaScript, TypeScript, JSON
 - **Frameworks & Libraries:** .NET Core, .NET MVC, Angular
 - **Cloud & DevOps:** Microsoft Azure, Azure DevOps, Terraform, CI/CD
 - **Database Technologies:** PostgreSQL, SQL Server
 - **API Development & Integration:** RESTful APIs, Swagger, Token-based Authentication
 - **Tools & Platforms:** Git, Docker, Visual Studio, Postman, Swagger
 - **Basic Data Science:** Data visualization, JSON data parsing
-

Professional Experience

Logistics System

URL: <https://collaboration-dev.sae.network/>

Technologies: Angular, .NET

Developed and maintained a logistics web application to streamline operations. Built features across Angular frontend and .NET backend. Integrated APIs for real-time data flow.

Machinery Protection and Online Condition Monitoring System URL:

<https://portal-dev.prognost.info/>

Technologies: Azure, Terraform, Azure DevOps, .NET

Worked on an industrial monitoring platform using Azure Blob Storage and Terraform for infrastructure provisioning. Automated CI/CD pipelines using Azure DevOps for seamless deployments.

MDTF-Dynamic Webpages System

Admin: [https://admin.digitaltravelfair.com/master/sponsor-](https://admin.digitaltravelfair.com/master/sponsor-logo)
Promo: <https://digitaltravelfair.com/landing-page->

Technologies: .NET

Engineered a system for generating dynamic, personalized landing pages for marketing and travel campaigns. Integrated with admin portal for logo and sponsor management.

Softnet CRM

Backend Swagger: <http://103.232.124.169:8444/swagger/index.html>

Frontend: <http://103.68.95.2:5001/auth>

Technologies: .NET 6 Core, PostgreSQL, Swagger, Bearer Token Authentication
Developed backend services for a CRM tailored for internet service providers. Ensured secure token-based authentication, structured API documentation using Swagger.

Finance Visualization SAAS

Web App: <http://103.232.124.169:8999/Login>

Technologies: .NET MVC

Built a visualization platform to display financial performance for users with data-driven dashboards and interactive reports using .NET MVC backend.

StockTradingDashboard

WebApp: <http://103.232.124.169:8000/sign-in->

Technologies: .NET

Developed a stock trading platform dashboard providing real-time analytics and order management functionality.
