- Database: MongoDB
- Tools & Platforms: Git, GitHub, VS Code, Azure, Postman, SignalR
- Other: MVC Architecture, JSON, Responsive Design

Work Experience

Frontend Developer
Atrosphere Technologies. | Dec 2021 – Present
- Built and maintained responsive web apps using Angular, Node.js, and Express.js
- Developed reusable components and modules for HRMS and PMS platforms (Wiseliy)
- Integrated RESTful APIs and improved data flow in real-time systems using SignalR
- Mentored 5+ trainees on UI development and JavaScript concepts like closures, promises, and async/await.
- Collaborated with backend teams, testers, and product managers in Agile sprints
- Collaborated on DevOps workflows using Git and managed deployments through Azure Pipelines for smoother release cycles.

Junior Developer Intern
Freelancer | June 2021 – Nov 2021
- Contributed to the development of an admin-facing dashboard using React.js and Redux
- Implemented Redux-Saga for managing side effects and streamlining state management
- Worked with NestJS to build and maintain backend APIs
- Collaborated with the development team to debug, test, and refine product features

- Conducted functional and non-functional testing for the SOLO application.
- Worked with NestJS to develop and debug backend APIs.

Projects

Wiseliy Admin
Role: Frontend Developer
- Tools: Angular, Node.js, REST API
- Built a reusable Email Template Module using Angular and integrated it with a microservice system

WorkWise (PMS)
Role: Frontend Developer
- Tools: Angular, SignalR
- Implemented real-time notification systems and optimized task management UI

StaffWise (HRMS)
Role: Frontend Developer
- Tools: Angular, REST APIs
- Developed leave management UI, integrated APIs for leave types, policies

DNS Project
Role: Frontend Developer
- Tools: HTML, CSS, jQuery
- Enhanced the frontend and debugged user interfaces for improved performance

Bissell Application
Role: Frontend Developer
- Tools: jQuery, JavaScript, Bootstrap
- Debugged and enhanced UI components and fixed API response flows

Awards & Achievements

- Awarded Certificate of Appreciation for contributions to frontend performance optimization and real-time feature development at Atrosphere Technologies.
- Mentored trainees in UI development and advanced JavaScript concepts, enhancing team skillset and productivity.
