CLIENT FEEDBACK

Truelancer Client
"I highly recommend Abdul Malik — they were a great developer to work with and made the project a success."

Guru Client
"Good work."

Guru Client (Detailed)
"Abdul has been very successful working on this project. He is very skilled in taking on a complex job. His coding skills are very clean and proficient. Very pleased with his work."

Upwork Client
"Abdul Malik delivered exactly what I needed — on time and with great quality. His communication was excellent throughout the project. Will definitely work with him again."

Fiverr Client
"Very professional and skilled developer. He understood my requirements quickly and built a mobile app that exceeded my expectations. Highly recommended!"

FreelancerMap Client
"Malik helped me organize years of messy data into clean, usable formats. His attention to detail is impressive. Great work!"

Direct Client
"Built a complete healthcare platform for my business. The system works flawlessly and my team loves it. Thank you, Malik!"

PROJECTS

Personal Savings and Expense App
Mobile app to help users record income, expenses, and manage daily finances. Built with Flutter for smooth performance and clean UI.

Medicare Pro Healthcare Platform
Healthcare management platform for patient records, appointments, and billing. Full-stack development with React and Node.js.

Travel Agency App
Mobile application for booking travel packages, viewing destinations, and managing reservations.

Real Time Forex Trading Data Platform
Web platform displaying live forex data with interactive charts and user dashboards.

Data Organization Project
Helped a client organize and clean 10+ years of business data using Python and Excel, creating structured reports and summaries.
