Portfolio: firatyildiz.dev

Remote Flutter | Next.js Developer & MVP Architect

Core Skills

- Flutter & Dart (Cross-Platform Mobile Apps)
- Next.js & Tailwind CSS (Modern, SEO-Ready Web Apps)
- Firebase (Scalable Backend & Auth)
- MVP Development & Rapid Prototyping
- Startup Product Scaling & Maintenance
- Debugging & Bug Fixing
- Project Management & Clear Client Communication

Freelance Highlights

- Developed MVP-level Flutter apps to help startups validate product ideas quickly.
- Built cost-effective landing pages for small businesses using Next.js & Tailwind CSS.
- Integrated Firebase for secure, scalable real-time databases and user authentication.
- Assisted solo founders with project planning, feature roadmaps and post-launch maintenance.

Availability

- Part-time Dedicated Flutter Developer for ongoing support.
- Weekly or monthly plans with fair, currency-adjusted rates.
- Open to long-term collaboration with startups and founders.
