## Professional Summary

Experienced Full Stack Web & Mobile App Developer with 5+ years of hands-on experience building scalable, user-friendly applications using Flutter, React Native, Node.js, Express, MongoDB, Firebase, and more. Proven ability to handle end-to-end development — from UI/UX to backend APIs and deployment. Strong background working with startups, agencies, and SaaS companies. Delivers clean code, on-time results, and long-term product support.

## Technical Skills

Mobile: Flutter, React Native, Dart, Firebase

Frontend: React.js, HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, Firebase Functions

Database: MongoDB, MySQL, Firebase Realtime DB, Firestore

Tools & DevOps: Git, GitHub, Postman, Figma, VS Code, Docker (basic)

Project Management: Jira, Trello, Slack, Notion

## Core Services

- Full Stack Web and Mobile App Development
- Custom iOS and Android Apps
- Admin Panels and Dashboards
- API Integrations and Backend Services
- MVP Development and Launch
- Maintenance and Ongoing Support

## Professional Experience

### Full Stack Developer (Freelance) | Remote | 2021 – Present

- Developed 25+ custom applications using Flutter, React Native, and Node.js
- Delivered MVPs and admin panels for early-stage startups and SaaS platforms
- Collaborated with UI/UX designers and backend teams to integrate APIs
- Implemented secure authentication, real-time features, and database structures
- Managed deployment on Firebase and AWS (basic)

### Web & Mobile App Developer | techHangouts – Hybrid | 2019 – 2021

- Worked as a dedicated resource for multiple long-term international clients
- Built web-based CRMs and dashboards with real-time data sync

- Contributed to mobile app development using Flutter and cross-platform tooling
- Led QA and post-launch maintenance for ongoing projects

## Education

Bachelor of Computer Applications  
Punjab University - 2019

## Certifications

- Flutter App Development – Udemy
- Node.js Backend Fundamentals – Coursera

## Client Highlights / Projects

**Genie Chat:** A keyboard-based CRM tool designed for sales teams and business communication, offering in-chat CRM features directly inside messaging platforms.

**Asocial:** A niche social media platform focused on authentic user expression with minimalist UI and streamlined social interactions.

**Sundate (<https://sundate.asia/>):** A Malaysia-based web dating platform built for Southeast Asian audiences, offering profile matchmaking, chat features, and cultural customization.

**go2life:** A full-scale web and mobile app combining social media, LinkedIn-like networking, reels, video calls, and job posting features in one integrated platform.

## Let's Connect

Available for full-time, part-time, or long-term dedicated projects. Let's discuss how I can help build or grow your product.
