PROJECTS

App.partzkwest.com

Worked on PartzKwest, an innovative application for sourcing and managing automotive parts. Focused on delivering a streamlined, user-centered interface and backend functionality to enhance inventory management and part search efficiency.

- **Technologies Used:** Angular Js, Laravel, MSSQL, AWS, IIS
- **Outcome:** Improved operational efficiency and provided a scalable solution for users to locate and manage automotive parts, leading to an increase in user satisfaction and application engagement.

TheVillageCastlePines.com

Developed and supported a resident portal for The Village Castle Pines, designed to provide homeowners with easy access to community resources, event updates, and essential resident services. Ensured a secure, user-friendly experience with efficient content management.

- **Technologies Used:** Laravel, WordPress, Elemento, JavaScript, Vue.js
- **Outcome:** Enhanced community engagement and improved resident access to information, fostering a connected and informed community environment.

WomensBeanProject.com

Contributed to the development and optimization of the Women's Bean Project e-commerce platform, an organization focused on creating job opportunities for women facing barriers to employment. Prioritized enhancing the shopping experience, ensuring site performance, and implementing accessibility features.

- **Technologies Used:** Wordpress, Shopify, JavaScript, Woocommerce, Payment gateways
- **Outcome:** Improved site functionality and accessibility, leading to an increase in online sales and a more supportive user experience for the organization's mission-driven customer base.

RoyalFrenchel.com

Contributed to the development and enhancement of the Royal French El e-commerce platform, a luxury brand specializing in French-inspired home décor and accessories. Focused on improving site performance, user experience, and optimizing product presentation to align with the brand's premium aesthetic.

- **Technologies Used:** Wordpress, HTML/CSS, JavaScript, Photoshop, Google Analytics, Payment Gateways
- **Outcome:** Enhanced the overall shopping experience, leading to increased customer engagement, improved site navigation, and a smoother checkout process, which contributed to higher conversion rates and brand visibility.
