

# Curriculum Vitae

**Name:** Abdelkhaleq Abualreish  
**Nationality:** Jordanian  
**Date of Birth:** 1982  
**Email:** abualrish99@gmail.com  
**Phone/WhatsApp:** 00962 79 531 4520  
**Location:** Jordan (Open to Remote Work)

## Profile

A professional **Software Developer** with extensive experience in building **automated systems**, **scalable web applications**, and **rapid MVP development** for startups. I specialize in delivering high-quality technical solutions with a focus on **clean code**, **automation**, and **streamlined digital tools** that drive business growth. Skilled in **remote collaboration** and **clear communication** with both technical and non-technical stakeholders.

## Education

B.Sc. in Computer Science, Saqer College, Jordan — 2005

## Professional Experience

### Lead Developer — RealTimeNetwork (UK-based Startup), Remote

- Built an AI-powered SaaS platform connecting game developers, investors, and talent.
- Designed system architecture and developed core features: profile creation, advanced filtering, and talent-matching mechanisms.
- Planned and guided the integration of AI for data analysis and intelligent recommendations.
- Collaborated with international teams to deliver scalable, reliable solutions under startup timelines.

### Software Developer — UIAShip, Remote

- Developed a fully automated shipment tracking platform, integrating APIs for real-time updates.
- Implemented automated PDF report generation, email notifications, and instant customer alerts.
- Managed server deployment via SSH and Nginx, DNS configurations, and basic security hardening.
- Contributed to infrastructure design and ensured smooth system operations.

## Technical Skills

**Programming:** Rust, Python, JavaScript, C, Dart

**Frameworks & Tools:** Node.js, Vue.js, Nuxt.js, Flutter

**Server & DevOps:** Git, Docker, Nginx, SSH, Linux administration

**Networking:** DNS management, TCP/IP, basic cybersecurity, mail servers

**Databases:** PostgreSQL, MongoDB, MySQL

**UI Development:** HTML5, CSS3, Flutter

**Automation & Integration:** API workflows, system integrations, n8n, automation tools

## Soft Skills

- Remote collaboration & team communication
- Time management under tight deadlines
- Technical problem-solving & innovation
- Cross-functional collaboration
