## About Me

Creative and detail-oriented Graphic Designer with 2–3 years of freelancing experience in creating social media, branding, and digital designs. Currently pursuing a BS degree from Hamdard University. Along with graphic design, I am also learning coding and web development to expand my technical and creative skill set. Passionate about continuous learning and delivering high-quality visual solutions for clients.

## WORK EXPERIENCE

### Junior Graphic Designer

TECH SOLUTION - 3 Months

- Designed social media posts, banners, and logos.
- Worked on Adobe Photoshop and Illustrator for digital campaigns.
- Assisted senior designers on client projects.
- Learned professional design workflow and team collaboration.

### Freelancing Experience

Freelance Graphic Designer – Self-Employed (Ongoing)

- Created digital designs for social media, branding, and websites.
- Communicated directly with clients to understand project requirements.
- Delivered high-quality visual solutions on time using Adobe Photoshop, Illustrator, and Figma.
- Gained experience managing multiple projects and client feedback professionally.
