kr.sujeet048@gmail.com | +916392931331 | [linkedin.com/in/sujeet48](https://www.linkedin.com/in/sujeet48) | Gurgaon

iOS Developer with 3.5 years of experience building user-friendly apps using Swift, SwiftUI, and UIKit within MVVM and Clean Swift architectures. Developed over 10 production features and integrated REST APIs (Alamofire, RxSwift), contributing to a 30% increase in user engagement. Migrated legacy UIKit components to SwiftUI to improve maintainability and scalability. Skilled in modular code design, clean architecture, and performance tools like Xcode Instruments. Experienced in unit testing, code reviews, and maintaining high-quality, scalable codebases. Excel at collaborating with product managers, designers, and backend developers in Agile teams, while continuously exploring new Apple frameworks and development best practices.

WORK EXPERIENCE

Software Engineer (iOS) - Nykaa(via **Reliason Technologies**)

May 2025 – Oct 2025

- Integrated **Nudge SDK** to deliver personalized, data-driven recommendations, increasing engagement and conversion.
- Refactored legacy UIKit-based modules into scalable SwiftUI components, enhancing code readability, performance, and long-term maintainability.
- Adhered to **Apple's Human Interface Guidelines (HIG)** and mobile **UX** best practices to create intuitive user flows.
- Collaborated with cross-functional teams in an **Agile** setup to deliver feature releases on time with high quality.

Software Engineer - IndiaMart InterMesh Ltd

Feb 2022 – Mar 2025

- Improved engagement by 12% on premium & paid Indiamart features, by enhancing UI flows and optimizing feature interactions using Swift, UIKit,
- Optimized the paid seller dashboard using **Xcode Instruments**, reducing load time and making the interface more lightweight and responsive.
- Refactored legacy code to support a modular architecture and integrated service APIs with automated unit tests, improving scalability, maintainability, and ensuring reliable, standards-aligned implementation.
- Collaborated with **cross-functional teams**, including product managers and designers, to plan and build quarterly features focused on improving user experience.
- Contributed to **technical planning and architecture discussions**, actively involved in implementation decisions and regular code reviews.

EDUCATION

Indian Institute of Information Technology, Dharwad

May, 2022

B.Tech (Computer Science Engineering) Dharwad, Karnataka

SKILLS

Languages & Frameworks: Swift, SwiftUI, UIKit, Objective-C (basic), Combine, Cocoa Framework

Architecture & Patterns: MVVM, MVC, Clean Swift, SOLID Principles

Tools & IDEs: Xcode, Git, CocoaPods, Proxyman

Testing & Deployment: Unit Testing, Integration Testing, TDD, App Store Deployment, Debugging, Tech Debt Management

APIs & Networking: RESTful APIs, JSON, HTTP, Alamofire

Development Practices: Agile/Scrum, CI/CD (GitLab), Debugging, Code Optimization, Memory Management

Soft Skills: Collaboration, Communication, Mentorship, UI/UX Focused Design Thinking
