## Objective

My main objective is to become a pharmacy or chemistry lecturer. B pharmacy course allowed me to gain knowledge in dispensing, marketing, sales and pharmacovigilance. I am able to gain high score in pharmacology and know all the aspects of pharmacology and pharmacy. Moreover I am interested in conducting detailed research in pharmacology field and I am also interested in finding out new medicines or researching new drugs. I have a great talent in project management and am skilled in presenting projects and explaining them. I am also interested in being an intelligent pharmacovigilance employee. I have cleared all the chemistry subjects. I have a deeper knowledge in chemistry and I know the advanced aspects of chemistry. Definitely I can be a good lecturer or chemistry teacher. Bachelors in pharmacy is an advanced form of chemistry.

## Experience

- Medical Trust Hospital**

Mar 2024 - April 2024

pharmacist intern

As part of my college university internship, I worked there for one month. I am able to understand all the pharmacy related operations that took place in the hospital pharmacy department and overall functioning of the hospital. I am able to study the basic operations like dispensing, patient counselling, billing and gained the information of all the medicines found in the hospital.

## Education

Course / Degree	School / University	Grade / Score	Year
Class 10 th	CBSE	98 percentage with A+ grade	2017
Higher secondary -science	CBSE	79 percentage	2019
Bachelor of Pharmacy	Kerala university of health sciences	I completed the final year and passed all the exams until the seventh semester but a few more exams to get cleared	Final year
Pharmaceutical inorganic chemistry Theory	Kerala university of health sciences	64 marks out of 100	2021
Pharmaceutical Analysis Theory	Kerala university of health sciences	62 marks out of 100	2021
Pharmaceutical Analysis practical	Kerala university of health sciences	30 out of 50	2021
Pharmaceutical inorganic chemistry practical	Kerala university of health sciences	28 out of 50	2021
Pharmaceutical organic chemistry -1 Theory	Kerala university of health sciences	51 marks out of 100	2022
Biochemistry -Theory	Kerala university of health sciences	56 marks out of 100	2022

Course / Degree	School / University	Grade / Score	Year
Pharmaceutical organic chemistry -1 practical	Kerala university of health sciences	35 marks out of 50	2022
Biochemistry -practical	Kerala university of health sciences	30 out of 50	2022
Pharmaceutical organic chemistry -2 theory	Kerala university of health sciences	53 out of 100	2022
Pharmaceutical organic chemistry -2 practical	Kerala university of health sciences	30 out of 50 marks	2022
Pharmaceutical organic chemistry -3 Theory	Kerala university of health sciences	53 out of 100 marks	2023
Medicinal chemistry -1 Theory	Kerala university of health sciences	60 out of 100 marks	2023
Medicinal chemistry -1 practical	Kerala university of health sciences	31 out of 50 marks	2022
Medicinal chemistry -2 Theory	Kerala university of health sciences	52 marks out of 100	2025
Medicinal chemistry -3 Theory	Kerala university of health sciences	56 out of 100	2025
Medicinal chemistry -3 practical	Kerala university of health sciences	34 marks out of 50	2024
Instrumental method of analysis -Theory	Kerala university of health sciences	60 marks out of 100	2025
Instrumental method of analysis -practical	Kerala university of health sciences	34 marks out of 100	2024
Advanced chemistry	Tandem entrance coaching centre	98 percentage	2020
Chemistry	Higher secondary - science	64 percentage	2019

## Skills

- Advanced chemistry, Medicinal chemistry, chemistry, biochemistry, organic chemistry, pharmaceutical Analysis, instrumental method of analysis, pharmacology, pharmaceutical inorganic chemistry, project coordinator , content writer

## Projects

- Formulation and evaluation of poly herbal peel off face mask**  
It is my college university project which is ongoing.

## Achievements & Awards

- Recieved single girl child scholarship from CBSE I passed all the exams of my B Pharm course until the seventh semester I always won prizes in essay writing competition during my school times. I always won prizes and scholarships in competitive exams

## Publications

- **Formulation and evaluation of poly herbal peel off face mask**  
Published in world journal of pharmaceutical sciences

## Interests

- Content writing, essay writing, teaching, reading, singing, dancing

## Additional Information

I am interested in teaching and tutoring pharmacy students  
I have a good skill in teaching in which I am appreciated by my college professors and students  
From my school itself I am very good in taking seminars  
Project management is my key skill. I can create, manage and present projects.  
Moreover I am an upcoming researcher who like to pursue careers in drug research.  
Pharmacology is my key and favourite subject
