---

## SUMMARY

Bachelor of Computer Science with one year of practical experience as a Web Developer. Experienced in designing interfaces with Figma and translating them into responsive websites using HTML, CSS, JavaScript, and WordPress. Comfortable working in teams, handling multiple projects, and adapting in fast-paced environments.

---

## WORKING EXPERIENCE

### PT. GIT Solution, Yogyakarta

Apr 2024 – May 2025

#### WordPress Website Builder & Figma Web Designer

- Converted UI/UX designs from Figma into pixel-perfect, responsive websites using Elementor Page Builder.
- Developed and maintained 3+ dynamic company profiles and landing pages using WordPress and Elementor, reducing development time by 50%.
- Mentored a team of junior web developers and employees in WordPress best practices through the creation of internal video tutorials.
- Improved website functionality and user experience, contributing to increased client engagement and company revenue.
- Designed websites interfaces with Figma and collaborated with developers to ensure accurate design implementation.

### Papua Multi Event, Papua

Aug – Sep 2024

#### WordPress Website Builder

- Designed and developed a multi-service WordPress website covering wedding organization, tourism, and training services.
- Worked directly with clients to gather requirements and deliver features according to project scope.
- Optimized the website for responsiveness on both desktop and mobile devices.

### Project: Coin Profile Website (Remote)

Sep 2024 – May 2025

#### Frontend Web Developer

- Developed a responsive token profile website using HTML, CSS, JavaScript, and Bootstrap.
- Implemented landing pages, roadmap sections, tokenomics display, and interactive UI components.
- Focused on performance, responsiveness, and clean front-end architecture.

### Project: Restaurant Management System (Internal Web App)

Jan 2025 – Mar 2025

#### Full-Stack Developer

- Developed an internal web-based employee management system for a restaurant business.
- Implemented employee attendance system with photo capture for manual verification by management, payroll calculation, and overtime management.
- Designed payroll logic with different hourly rates for mandatory work and overtime, including weekly overtime payouts and monthly base salary processing.
- Built inventory management features including stock-in, stock-out, and damaged stock tracking.
- Focused on data accuracy, role-based access, and operational efficiency.

---

## EDUCATION

### Universitas Wijaya Kusuma Surabaya, Surabaya

Aug 2021 – Jul 2025

#### Bachelor of Computer Science

GPA 3.86 of 4.00

Honors: Excellent

## LEADERSHIP ACTIVITIES

---

**Informatics Program, Universitas Wijaya Kusuma, Surabaya**

Mar 2024 – Mar 2025

### ***Laboratory Assistant Coordinator***

- Had the responsibility to plan and organize the event and to ensure the practical sessions ran successfully.
- Oversee laboratory assistants' performance, timeline achievement, and schedule the internal coordination meeting.
- Provided the needs of multiple courses, laboratory assistants, and students in practical sessions.
