PROFILE

About *the studio.*

I am a **university-certified Frontend Web Developer** and **UI/UX Designer** certified by **National University of Modern Languages (NUML)**. I also specialize in **WordPress** development, Canva design, **SEO** & Digital Marketing, and performance optimization through **Coursera** certifications. A certified **AI Developer** focused on building intelligent systems like personal **AI agents**, **chatbots**, and AI-integrated applications.

LEARNING JOURNEY

From learning to *building.*

Now

Independent Frontend & UI/UX Designer — [jawadiftikhar.com](#)

Currently focused on building production-grade frontend projects using HTML, CSS, JavaScript, Bootstrap and Tailwind with a strong UI/UX focus. Shipped a fully bespoke portfolio with motion, RTL/LTR, multi-language and dark/light theming.

PORTFOLIO · ACTIVE WORK · ISLAMABAD · PK

2026

AI Development Introduction

Started building AI-powered applications — chatbots, personal agents and AI-integrated UIs using modern APIs and prompt-engineering workflows.

AI · CHATBOTS · APIS

2025

Certified Learning Phase — NUML & Coursera

Completed certifications in Frontend Development, UI/UX Design, WordPress, SEO and Digital Marketing across NUML and Coursera. Started shipping client-ready web themes.

CERTIFICATION · NUML · COURSERA

2025

WordPress & SEO Practice

Learned WordPress customization, page builders, basic SEO, on-page optimization and content/keyword strategy via structured courses.

CMS · SEO BASICS · ANALYTICS

2026

Frontend Development Practice

Built small but complete projects using HTML, CSS, Bootstrap and Tailwind to sharpen responsive design and component architecture skills.

DEVELOPMENT · RESPONSIVE WEB · BOOTSTRAP · TAILWIND

2026

UI/UX Exploration

Started working seriously with Figma — learned UI design principles, spacing, type, components, variables and prototyping flows.

DESIGN · FIGMA · DESIGN SYSTEMS

2023

Started Web Learning

Began with HTML and CSS basics — understanding how web pages are structured, styled and brought to life.

FOUNDATION · FRONTEND BASICS

SELECTED WORK - 2020 / 2026

Recent *portfolio.*

HTML / CSS / JS · 2026
Aurora & Co. — Agency Theme
A modern UX system for a creative agency, with full motion, blob backdrops and a flexible content architecture.
[Live](#) > Modern UX system

FIGMA / UI/UX · 2026
StudyAI — Interactive Landing Page
A modern, high-fidelity landing page design for a Study AI Assistant website, created with a strong focus on user experience, interaction, and responsiveness.
[Live](#) > Prototyping & UI

HTML / CSS / JS · 2025
Axiom — Portfolio Theme
An interactive portfolio interface focused on typography, scroll narrative and lightweight motion.
[Live](#) > Interactive portfolio UI

FIGMA / IOS & ANDROID · 2025
Restaurant — Full Web Experience
A highly detailed and professional restaurant website design featuring 24+ fully structured pages with advanced UI/UX and complete functional coverage.
[Live](#) > Web Desktop UI

TAILWIND / JS · 2025
Wanderly — Travel Concierge
A luxury travel-planner experience with a clean booking flow, content-driven imagery and adaptive layouts.
[Live](#) > Luxury travel planner

FIGMA / IOS & ANDROID · 2025
Artify — Mobile App UI
Artify is a modern and professional mobile app UI design for smart home device control, featuring 17+ carefully crafted screens. It is designed to deliver a seamless, intuitive, and visually elegant experience for managing connected home devices in real time.
[Live](#) > App UI

BOOTSTRAP / JS · 2026
SORELLE 24 — Restaurant Theme
A complete reservation + UX system for a modern restaurant, with menu, booking flow and brand storytelling.
[Live](#) > Reservation + UX system

FIGMA / MOTION DESIGN · 2026
Animations — Motion Design · Prototyping
A highly interactive UI design featuring 7+ fully functional sliders, smooth animations, and dynamic transitions. This project is focused on creating a rich and engaging user experience through advanced motion design and seamless interactions.
[Live](#) > Prototyping

HTML / CSS / JS · 2026
Bespoke Interior — Luxury Theme
An interactive interior-design experience with editorial typography and immersive product/portfolio storytelling.
[Live](#) > Interactive interior experience

TAILWIND / JS · 2026
Vyro — Creative Studio
A multi-page studio system built with a custom design language, Tailwind utilities and crisp section composition.
[Live](#) > Multi-page studio system

PROCESS

How I *build projects.*

- 01 Discover**
I analyze references, understand requirements, and define the goal of the interface or project.
- 02 Plan**
I structure layout ideas, user flow and information architecture before designing anything.
- 03 Design**
I craft UI concepts in Figma — layout, spacing, typography, components and usability.
- 04 Develop**
I convert designs into responsive code using HTML, CSS and Bootstrap / Tailwind, with motion baked-in.
- 05 Refine**
I refine responsiveness, fix UI issues, optimize performance and ship a consistent experience across devices.
