About me

I am a dedicated and versatile developer with a strong foundation in building scalable, user-centric digital solutions. With expertise spanning front-end and back-end ecosystems, I excel at bridging the gap between complex technical requirements and intuitive user experiences. I am a collaborative problem-solver committed to clean code, performance optimization, and continuous learning.

Skill

(*)[The skill scale is from 0 (Fundamental Awareness) to 6 (Expert).]

Work History

- July-Dec** Junior Full Stack Developer Amroodlabs, Lahore
Developed high-quality web applications and resolved technical issues for stability.
Built full-stack solutions including e-commerce platforms and responsive interfaces.
Translated stakeholder requirements into functional technical specifications.
Managed client communication and feedback through iterative development.
- Jan-May** Computer Operator The Educators (Hassan Campus)
Managed data entry, school records, and administrative documentation while ensuring high accuracy and system organization.
- Jan-May** Computer Operator Quaid Educational Complex (Main Campus)
