Professional Summary

Motivated Computer Science student and aspiring Junior Full-Stack Developer with hands-on experience building responsive and interactive web applications. Skilled in frontend development and backend fundamentals using JavaScript technologies. Experienced in

creating independent projects involving APIs, CRUD operations, authentication systems, and database integration. Passionate about learning modern technologies and developing efficient, user-friendly solutions.

Technical Skills

Frontend Development

- HTML5
- CSS3
- JavaScript
- TypeScript
- Tailwind CSS

Backend Development

- Node.js
- Express.js
- REST APIs

Database

- MongoDB

Tools & Version Control

- Git
- GitHub

Projects

NOVARYN AI Portal

Personal Full-Stack Project

- Developed a full-stack web application with authentication and CRUD functionality.

- Implemented backend services using Node.js and Express.js.
- Integrated MongoDB for data management using Mongoose.

Technologies: Node.js, Express.js, MongoDB, Mongoose

Weather Application

Personal Project

- Built a weather application that fetches and displays weather information using API integration.
- Created a responsive interface with dynamic data updates.

Technologies: HTML, CSS, JavaScript, API Integration

Movie Search Application

Personal Project

- Developed a movie search application using external API data.
- Implemented search functionality and dynamic content rendering.

Technologies: HTML, CSS, JavaScript, API Integration

Responsive Image Gallery

Personal Project

- Created an interactive image gallery with filtering features and hover effects.
- Designed a responsive layout for different screen sizes.

Technologies: HTML, CSS, JavaScript

Calculator Application

Personal Project

- Built a responsive calculator with JavaScript-based calculations.
- Focused on clean UI design and user interaction.

Technologies: HTML, CSS, JavaScript

Portfolio Website

Personal Project

- Designed and developed a personal portfolio website to showcase skills, projects, and development journey.

Technologies: HTML, CSS, JavaScript

Education

Bachelor of Science in Computer Science (BS CS)

University of Sargodha (UOS)

Sargodha, Pakistan

Currently: 2nd Semester

Certifications & Learning

Completed:

- Freelancing Certificate

Currently Learning / Planned Certifications:

- Full Stack Development
- Artificial Intelligence using Python
- Cloud Computing
- Mobile App Development
- Game Development

Additional Information

- Developed all listed projects independently.
- Strong interest in web development, software engineering, and emerging technologies.
- Continuously improving programming and problem-solving skills.
