

PREM SAGAR

English & Urdu Translator

Dedicated Resource Profile

I provide English–Urdu and Urdu–English translation services with a strong focus on accuracy, clarity, natural language, and preservation of the original meaning and context.

I can work with general documents, educational content, essays, short articles, personal documents, website text, descriptions, and other everyday written materials. I carefully review source content before translating it and aim to produce clear, natural, reader-friendly language for the target audience.

For English-to-Urdu translation, I focus on natural Urdu rather than word-for-word wording. For Urdu-to-English translation, I aim for understandable and professional English while keeping the writer's original ideas and message intact.
