Professional Summary

High-performing Microsoft Excel Developer specializing in transforming raw, chaotic data into gorgeous, interactive business assets. Expert in building automated data pipelines using Power Query and designing premium, custom UI/UX dashboard interfaces. Proven ability to eliminate manual errors and deliver executive-ready data visualizations using advanced slicers and dynamic modeling. Dedicated to working flexible, comprehensive hours (7:00 AM – 12:00 AM Midnight Egypt Time) to support global clients.

Core Expertise & Tools

- **Data Automation:** Power Query, Advanced Data Cleaning, ETL Processes, Data Modeling.
 - **UI/UX & Visualization:** Custom Interactive Dashboards, Dynamic Slicers, Custom Design Palettes, Advanced Charting.
 - **Software:** Microsoft Excel (Desktop/365), Power Pivot.
-

Freelance Experience

Expert Excel Developer & Data Analyst

Freelance / Guru / Fiverr Platform | 2026 — Present

- **Data Architecture:** Architected end-to-end data cleaning pipelines within Power Query, cutting manual data entry time for clients.
- **Dashboard Design:** Designed custom UI/UX dashboard interfaces featuring interactive slicers and tailored visual layouts for executive-level reporting.
- **Process Automation:** Streamlined messy, multi-source raw datasets into structured Excel models, ensuring 100% data integrity.
- **Client Management:** Delivered high-quality projects under strict timelines while maintaining active, 24-hour communication across multiple global time zones.
