Hafiz Gulraiz

UI/UX Designer

About Me

Creative and detail-oriented UI/UX & Visual Designer with expertise in designing intuitive mobile app interfaces, responsive websites, dynamic design systems, and modern 3D visual assets. Skilled in transforming complex ideas into user-friendly wireframes and interactive Figma prototypes. Passionate about creating seamless digital experiences that combine functional usability with strong visual aesthetics.

Experience

- Freelance UI/UX & Visual Designer**
- 2022 – Present | Islamabad, Pakistan**
- Designed mobile application interfaces, responsive websites, and interactive prototypes in Figma.
- Created scalable design systems, UI component libraries, and style guides for visual consistency.
- Developed modern 3D visual assets, claymorphic graphics, and brand marketing collateral.
- Collaborated with front-end developers to ensure accurate design implementation.

UI/UX Designer

- Blockmob Labs | 2026**
- Designed user-friendly interfaces, dashboards, and visual graphics for digital products.
- Developed structured wireframes and high-fidelity layouts based on project requirements.
- Redesigned existing visual concepts to improve overall navigation and user engagement.
